TO TRY TAI CHI FOR ARTHRITIS AND- FALL PREVENTION

Tai Chi for Arthritis is a class suitable for adults with or without arthritis, rheumatic diseases or related musculoskeletal conditions.

It is appropriate for people with mild to severe joint and back pain. Participants who are at higher risk of falling will greatly benefit from this class. This class is an excellent introduction to Tai Chi, as it is based on the Sun Style of traditional Tai Chi,

This class will train participants to practice by themselves at home, as part of their therapy and healthy improvement program. Full benefits can be achieved by practicing a half hour a day, at least four days per week.

Participants are strongly encouraged to stay within their comfort zone.

Tai Chi for Arthritis
Dr Paul Lam | A Tai Chi for Health Program
